WEBINAR

CONCEPTUAL AND METHODOLOGICAL APPROACHES TO EVALUATE ADAPTATION ACTIVITIES TO CLIMATE CHANGE

The webinar consists of a **master lecture by Emilie Beauchamp, expert at iied in evaluation of adaptation to climate change in the countries of the Global South**, with introduction and moderation by Dirk Hoffmann, of the FOCELAC project.

In the first part, the participants will know the conceptual and methodological approaches for evaluations of climate change adaptation activities illustrated with practical examples from iied field work. In the second part, there will be an open space for questions and answers an open debate with moderation among all the participants (in English and Spanish).

Time: 8:00am to 9:30am (CST)

Date: June 2nd

Zoom Platform

Organized by: Focelac, IIED

Addressed to: people with interest in
climate change evaluation
