Regional Development Decision-Making: *How does M&E contribute to this process?*

Caribbean Regional Frameworks

Regional Development Decision-Making: What are the functional Mechanisms to embed *M&E into the process?*

CCH-IV GOVERNANCE

- ✓ CCH-IV Secretariat
- ✓ CCH-IV Steering Committee
- ✓ Priority Areas Coordinating Committee (PANCAP)
- ✓ CARICOM Chief Medical Officers – Annual CMOs Meeting
- ✓ CARICOM RBM Leadership Group
- ✓ CARICOM Virtual Pillar Group
- ✓ Caribbean M&E Technical Working Group for Health

M&E Demand and Supply: *How do we adapt in a post-crisis era?*

Why post-crisis? Now matters more...

- The importance and relevance of M&E must be demonstrated now on improving development outcomes during the pandemic
- M&E is needed to determine how the pandemic has impacted the development outcomes of the Caribbean Community
- Decision/policy makers need M&E information now - *What are the right decisions? What are the best measures?*

New M&E Approaches: *How do evaluators prepare to meet the changes?*

Re-examine theories
of change

Promote evaluation
practices

Incorporate mixed
method approaches
to evaluations

Examine the use of
proxy indicators

Incorporate applied
research into
evaluation practice

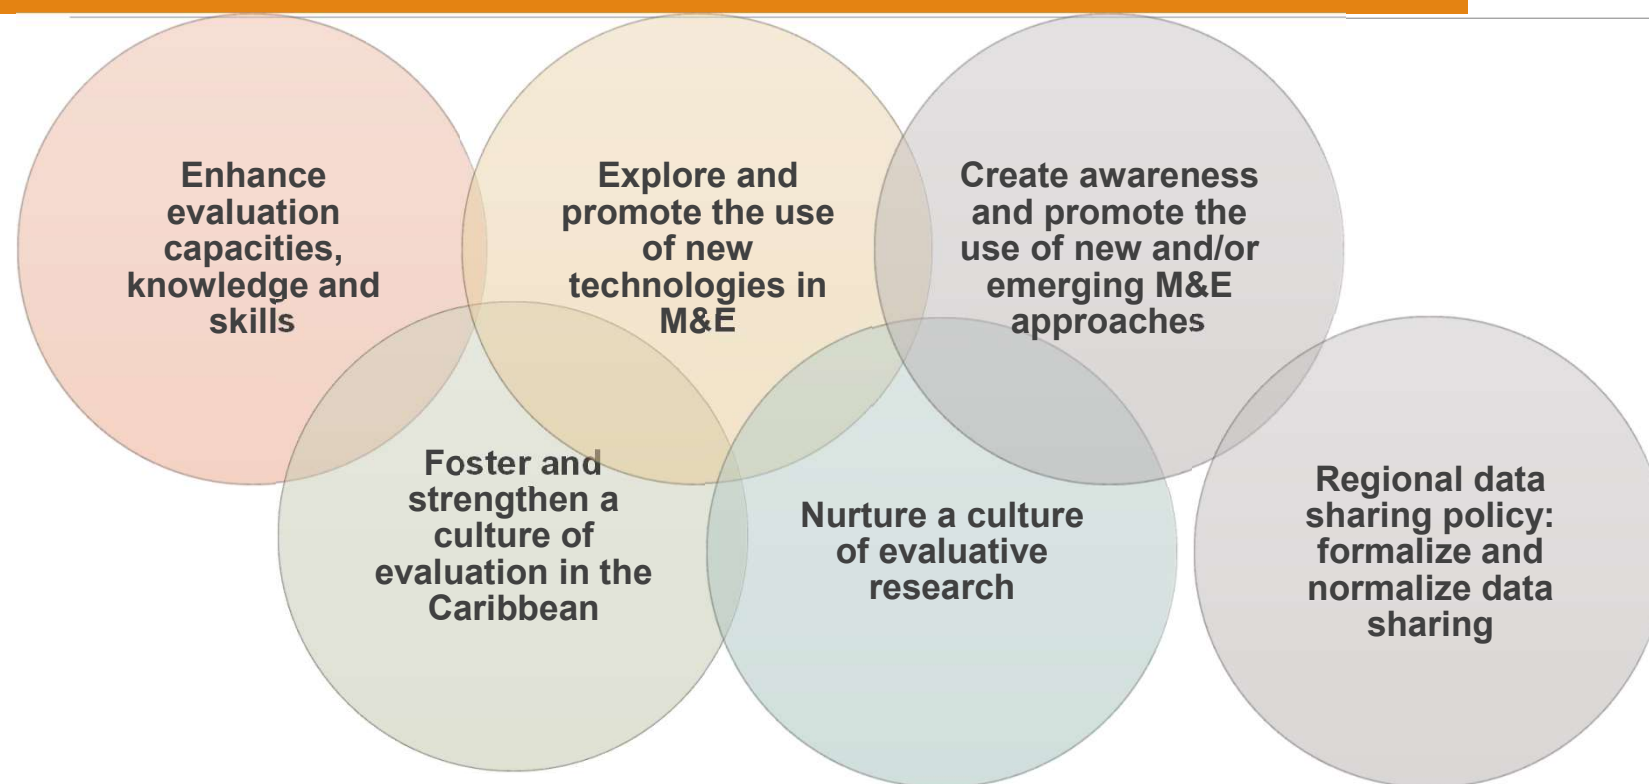

Examine Emerging
technologies in M&E
and their applicability
to the Caribbean
region/context

Better utilize data
visualization to
communicate
messages and
results

Strengthen analytical
skills

Be resourceful and
innovative in a
resource constraint
environment

Voluntary Organizations for Professional Evaluation: *What actions can be taken to address the M&E gaps?*

Thank you
